

Multi-Conveyor LLC

Your best...conveyed better.

Plastic Chain & Table Style Top Conveyors

Plastic chain, stainless & carbon steel constructions all have their industry-specific benefits. Our modular plastic chain conveyors offer straight running or side flexing features with horizontal, incline or decline configurations. Chain widths are designed for the application in a full range from 3 inches to 120 inches. Guiderails are fixed or adjustable. End to end or side transfers are additional design choices. Table style chain conveyors are constructed with similar features. Often carbon steel constructed, these chain top conveyors show every attention to detail, from painted bearings and structural angle supports, to fixed or adjustable guiderails. Our turnkey plastic chain conveyors will keep your business scheduling on track.

Plastic Top Chain Conveyor Features:

- Carbon steel or stainless steel construction
